SOFTWARE ENGINEERING

Call for Scientific Contributions
As in previous years, we invite talks on major software engineering contributions from the past two years, published at top international venues.

Call for Industry Contributions
We welcome industry professionals to share practical insights and real-world challenges to build a bridge between academia and practice.

Call for Student Contributions
Students are encouraged to join the student research track and present their work in an academic conference setting.

Call for Workshops and Co-Located Events
We invite proposals for co-located events that complement the main conference and foster discussions on emerging topics.
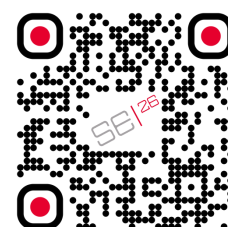

Call for Sponsors
Join us as a sponsor and connect with a dynamic, engaged and vibrant community.

SE is the premier software engineering conference in Germany, Austria and Switzerland. Since 1998, it has served as a platform for software engineers from industry and researchers from academia to share their experiences and knowledge and to foster community building.

The 2026 edition of SE will take place in **Bern, Switzerland**, from **23rd - 27th February 2026**. Preparations are already underway. The venue (Stadion Wankdorf) has been selected, and both the technical and social programs are gradually taking shape.

Above all, however, we need your contributions to make the conference engaging and insightful. Detailed information about the **calls** is available on the conference website:
